

# KEGG Enrichment – Leaf (W9706 vs B73)

KEGG Pathway

Photosynthesis

alpha-Linolenic acid metabolism

Fatty acid degradation

Valine, leucine and isoleucine degradation

Alanine, aspartate and glutamate metabolism

Peroxisome

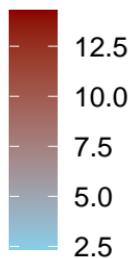

Carbon metabolism

Biosynthesis of amino acids

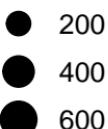

Biosynthesis of secondary metabolites

Metabolic pathways

-log<sub>10</sub>(adj p-value)

DEG Count

Gene ratio (DEGs / pathway genes)
